**INTRODUCTORY
SECTION**

November 30, 1982

The Honorable Robert D. Orr, Governor
and
The General Assembly of the State of Indiana
and
The Taxpayers of the State of Indiana

The Auditor's office is completing the fourth year of service. As most know we have improved many areas in the centralized accounting system. The Fixed Asset Inventory was a major project which is now near completion. Unfortunately it was not close enough to be done on the June 30 deadline to be considered by the State Board of Accounts.

Internal controls have been improved to tighten up our disbursing functions. The Board of Accounts Data Processing Audit group has reviewed the major systems and recommended improvements. We are complying with their suggestions where feasible on the short run. Some of the other items will require additional appropriations from the legislature.

The financial statements were prepared in accordance with "Governmental Accounting Auditing and Financial Reporting" as established by the Municipal Finance Officers Association. Our main problem is still dealing with the entity question. The universities have their own accounting systems. The Board of Accounts on an annual basis performs the audits. Due to timing problems, we are unable to include the information with this annual report. Until these and other situations are resolved, we will be unable to satisfy the entity definition.

We have accepted the opinion rendered by the State Board of Accounts. The present management team and myself wish to express our thanks to the people of this great State for the assistance they gave during this administration. We have made many new friends and are proud to serve each and everyone.

Sincerely,

A handwritten signature in dark ink, appearing to read "Charles D. Loos". The signature is fluid and cursive, with a long, sweeping underline.

AUDITOR'S REPORT

The Honorable Robert D. Orr, Governor
and
The Legislative Council of the
General Assembly of the State of Indiana

We have examined the combined financial statements of the various funds of the State of Indiana and its combining and individual fund financial statements as of June 30, 1982, as listed in the foregoing table of contents. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As disclosed in Note A to the financial statements, the State of Indiana's computerized General Fixed Asset Account Group is not yet fully operational. Due to this factor the General Fixed Asset Account Group was not examined by us and we accordingly express no opinion thereon.

In our opinion, except for the General Fixed Asset Account Group, on which we express no opinion, the aforementioned financial statements present fairly the financial position of the various funds of the State of Indiana at June 30, 1982, and the results of operations of such funds, and the changes in financial position of the Proprietary Type Funds for the year then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year after giving retroactive effect to the change from the modified accrual to the full accrual basis of accounting for all Nonexpendable Trust Funds, as explained in Note A to the financial statements, with which we concur.

The accompanying supplemental schedules and related information are presented as additional analytical data, and no opinion is expressed thereon.

STATE OF INDIANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 1982

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Bases of Accounting.** The modified accrual basis of accounting is used for all Governmental Fund Types, Expendable Trust and Agency Funds. The accrual basis of accounting is used for all Proprietary Fund Types, Nonexpendable Trust and Pension Trust Funds. Budgets are prepared on a cash basis for all funds for which a budget is legally adopted. Budget figures for expenditures in Budget vs. Actual Statements represent Legislative Appropriations and Supplemental Appropriations made during the year. Actual expenditures include both cash disbursements and outstanding encumbrances. Estimated revenues are recorded only in the General Fund.
2. **Definitions of Fund Types and Bases.**
 - a. **Fund Types.** There are eight fund types recognized in governmental (fund) accounting. The Auditor of State's accounting system recognizes six of these types: General, Special Revenue, Capital Projects, Enterprise, Internal Service, and Trust and Agency funds. These six recognized fund types are further segregated into three broad categories of fund types: Governmental Fund Types, which include General, Special Revenue and Capital Projects; Proprietary Fund Types, which include Enterprise and Internal Service Funds; and Fiduciary Fund Types, Trust and Agency Funds.
 - b. **Modified Accrual Basis of Accounting.** In the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become available and measurable. Expenditures are recognized in the accounting period in which the fund liability is incurred. In the Auditor of State's accounting system, the fund liability is recognized when goods are received under an encumbered purchase order; other types of expenditure documents are not readily measurable for purpose of accrual, except for personal services which are accrued at year-end only.
 - c. **Accrual Basis of Accounting.** In the accrual basis of accounting, revenues are recognized in the accounting period in which they are earned and become measurable. Expenses are recognized in the period incurred if measurable.
3. **Basis of Presentation.** The accompanying financial statements substantially conform to the principles set forth in *Governmental Accounting and Financial Reporting Principles, Statement 1*, issued by the National Committee on Governmental Accounting.
4. **Revenue, Expenditure, and Expense Account Classifications.** Governmental and fiduciary type funds revenues are classified by fund and source. Expenditures are classified by fund, function, activity, organization unit, and principal and sub-classes of objects. Proprietary type fund revenues are classified by fund and source, and expenses are classified by fund and principal and sub-classes of objects.
5. **Revenue Sources Susceptible to Accrual for Funds Utilizing the Modified Accrual Basis of Accounting.** The concept of the modified accrual basis of accounting recognizes revenues in the accounting period in which they become available and measurable in a material amount. Revenues deemed both available and measurable, and therefore accrued, were limited to Federal Grants Receivable and General Fund Taxes.
6. **Valuation of Assets.**
 - a. **Investments.** Investments are stated at cost for all funds, except Pension Trust Funds, which are stated at amortized cost. The Auditor of State records only those investments purchased by his warrant. These statements therefore, generally do not reflect those "cash balance" investments (which legally may cross funds or fund types) which are purchased by the Treasurer of State's check.
 - b. **Fixed Assets—General Fixed Assets Account Group.** The information for the statewide inventory of land and fixed assets was being accumulated when the annual report was com-

piled. As the inventory system was not functional by the date of this report, the Auditor of State did not establish a general fixed asset account group. Fixed assets (at historical cost) and related depreciation (straight line method) are included in the Proprietary Fund Types and Pension Trust Funds financial statements.

- c. **Inventories.** Inventories of supplies and salable goods are recorded only in Proprietary Fund Types. Inventories are stated at cost and are determined by either the first-in, first-out or the weighted-average method depending upon the particular Internal Service Fund involved.

7. **General Long-Term Debt Account Group.** The State of Indiana is constitutionally prohibited from incurring long-term debt. Accordingly, no General Long-Term Debt Account Group is maintained. Except that pursuant to P.L. 74, Acts of 1980, as amended by P.L. 74, Acts of 1981 the Indiana Toll Bridge Commission was abolished with all powers, duties, liabilities, records and property transferred to the Department of Highways. Therefore, the Toll Bridge Commission's debt in outstanding revenue bonds is included in the financial statements.

8. **Nature and Purpose of Reserves.** Certain reserves are set up within the equity section of the balance sheet of each fund to indicate items that are not currently spendable by the state. These items represent either monies set aside by the legislature for a certain future purpose, monies committed for a specific future expenditure, or monies which, due to that fund, will not be received on a current basis.

- a. **Reserve for Long-Term Receivables.** This reserve is established to recognize that certain advances and loans to other funds were loaned on a long-term basis and are not currently available for expenditure.

- b. **Reserve for Loans to Local Units of Government.** This reserve is established to recognize that the legislature has set aside certain amounts of money to loan to local units of government for specific purposes. In all funds but the general fund these amounts are loans to individual school units or funds advanced to counties. In the general fund these amounts are:

County Tornado Disaster Loans	\$ 1,032,590.80
Economic Development Matching Loans	43,174.36
Flood Control Loans	2,000,000.00
Industrial Development Loans	5,811,520.71
School Disaster Loans	3,137,721.00
Total	<u>\$12,025,006.87</u>

- c. **Reserve for Tuition Support.** This reserve is established to recognize that the legislature has set aside money, the amount to be determined by the State Budget Agency, for paying the distribution to local school units at the beginning of the succeeding fiscal year.

- d. **Reserve for County Adjusted Gross Income Tax.** This reserve is established to recognize that collection of these county taxes by the State of Indiana are held in trust in the General Fund and are not available for expenditure.

- e. **Reserve for Encumbrances.** This reserve is established to recognize that an amount of money has been set aside out of one year's budget for goods and/or services ordered during that year, that will not be paid for until they are received in a subsequent year. If the goods or services have been received in the current year, but the paperwork simply was not processed in time to be paid during the year, the amount is shown in the liabilities section of the balance sheet, not in the reserve for encumbrances.

9. **Budget, Appropriation and Amendment.** Budgets are established for each agency by the State Budget Agency on a cash basis for the purpose of preparing a recommended budget report and budget bill for the budget committee of the legislature. This budget report includes both cash revenues and cash disbursements. A general appropriation act is passed by the legislature each biennium, and with any amounts appropriated by separate act, an appropriation list is certified to the Governor, the Auditor of State, and each member of the legislature, by the Budget Director, to be posted to individual agency accounts within each governmental type fund. The Budget Agency does have a limited authority to transfer such appropriations between accounts within the same agency. The Budget Agency also administers a quarterly allotment system to provide budgetary control over those agency accounts which are within governmental type funds. The State Board of Finance (consisting of the Governor, Auditor of State, and Treasurer of State) is empowered to transfer appropriations from one agency of the state to another, or to transfer amounts from one fund of the state to any other fund of the state with the exception of trust funds.

10. **Encumbrances.** An encumbrance is an amount set aside from the other spendable resources in a fund to pay for a specific amount of goods and/or services that have been ordered by an agency of the state on a formal purchase order. Since these purchase orders could be cancelled or modified prior to the actual delivery of goods or rendering of services, they do not yet represent an expenditure nor a liability of the state, but are merely a reservation of fund balance for a possible future expenditure. At year-end, those encumbrances which represent purchase orders for which goods or services have been received are eliminated from this reserve and the fund liability is recognized. (See the discussion above on reserves.) Those encumbrances which represent purchase orders for which goods and services have not been received by year-end do not lapse. Appropriations for the year in which the purchase order was encumbered are carried forward into the succeeding year(s) to be recognized as expenditures in the year in which the fund liability is actually incurred, if not previously cancelled. Increases in such prior-year purchase orders must be augmented by the State Board of Finance, and any decreases revert to the fund.

11. **Vacation and Sick Leave Policies.**

- a. **Vacation Leave.** Vacation leave with pay is earned by all full-time employees at the rate of one working day for each full month of employment. Employees working on a part-time basis earn vacation leave at the rate of one half working day per month. Vacation is not earned by hourly, per diem, temporary, intermittent, contractual, or employees working less than one half time. Employees accrue, but may not use, vacation leave during the first six months of employment (twelve months for part-time). If an employee terminates prior to the completion of six months, all accrued leave is forfeited. Employees who have completed ten years of continuous full-time employment (twenty years for part-time) shall receive three bonus vacation days per year on the anniversary date of their employment. Employees who have completed twenty years of continuous full-time employment (forty years for part-time) shall receive five additional (total of eight) bonus vacation days per year on the anniversary date of their employment. There is no limitation to the accumulation of vacation leave, but upon termination of service, in good standing, employees will be paid for a maximum of six calendar weeks of unused vacation leave. (Policy established by State Personnel Division Rules and Regulations)

At June 30, 1982, accumulated unpaid vacation pay benefits, up to six calendar weeks accumulation, equaled \$23,904,721.11 for all funds of which the General Fund portion is \$13,291,156.98.

- b. **Sick Leave.** Sick leave with pay is earned by all full-time employees at a rate of one working day for each full month of employment. Employees working on a part-time basis earn sick leave at the rate of one half working day per month. Sick leave is not earned by hourly, per diem, temporary, intermittent, contractual, or employees working less than one half time. Employees who have a minimum of five years of continuous full-time employment, who have exhausted their accumulated vacation and sick leave balances, may receive special sick leave, if approved, amounting to one calendar week of special sick leave for each complete year of continuous full-time employment. There is no limitation to the accumulation of sick leave, but no amounts will be paid for unused sick leave at termination of service. (Policy established by State Personnel Division Rules and Regulations)

B. STATE OF INDIANA—FISCAL ENTITY DEFINED

The State of Indiana, as a fiscal entity, consists of all departments, agencies, boards and commissions whose primary accounting functions are maintained through the Auditor of State's centralized accounting system. Quasi-governmental units are those operating from funds separate from the State Treasury, whose accounts are not maintained by the Auditor. State Universities do receive legislative appropriations paid by warrant of the Auditor of State, but they operate outside the State Treasury and account for their own funds. Accordingly, quasi-governmental units and State Universities are not included in this report. Such units are:

Ball State University
 Indiana State University
 Indiana University
 Indiana University Medical Center
 Indiana Vocational Technical College
 Purdue University
 Vincennes University

Law Enforcement Building Commission
 Port Commission
 State Fair Board
 State Office Building Commission
 State Police Building Commission
 Toll Road Commission
 White River Park Development Commission

C. PRIOR PERIOD ADJUSTMENTS

1. **General Fund.** A prior period adjustment was made to recognize the cumulative effect of an accounting error in the equity transferred to the Capital Projects Fund at June 30, 1981.
2. **Capital Projects.** A prior period adjustment was made to recognize the cumulative effect of an accounting error in the equity transferred from the General Fund at June 30, 1981.
3. **Internal Service.** A prior period adjustment was made to recognize the cumulative effect of accounting errors in recording fixed assets and current liabilities.

D. CAPITAL PROJECTS FUNDS

Certain operating accounts within the General Fund that represent biennially appropriated construction projects were removed from the General Fund and set up in a Capital Projects Fund titled "General Fund Construction".

E. CONTINGENT LIABILITIES

Annually at December 31, the Attorney General of the State of Indiana reports to the Governor on the total amount of tort claims outstanding against the State. At December 31, 1981, the Attorney General reported \$208.7 million in tort claims and pending lawsuits against the State. Based upon past performance, representatives of the Attorney General's Office have indicated that they do not believe that a significant portion of claims and lawsuits will proceed to judgment against the State.

F. LONG-TERM CONSTRUCTION CONTRACTS

The State of Indiana has entered into long-term commitments for highway construction of approximately \$61.3 million.

G. DEFICIT FUND BALANCES

The Auditor of State shows a deficit balance for the following funds as of June 30, 1982:

Fund	Amount
Construction of Mental Institutions	\$(1,913,623.25)
Recreation Development Commission	(500,000.00)

The following funds show a deficit balance in fund equity from the effect of accrual of salaries and vouchers payable:

Fund	Amount
Vocational Education	\$(40,959.28)
Emergency Special Education Act	(9,419.61)
Employment Security, Administration	(56,252.84)

H. GENERAL FUND—ASSET RECOGNITION

Certain assets recorded as receivables in the General Fund by the Auditor of State represent amounts contributed by the General Fund to other funds. The Field Examiners from the State Board of Accounts have previously requested that these amounts be written off. The Auditor of State does not concur, and such assets are stated as follows:

Advance to Insurance Rotary	\$ 20,000.00
Malpractice Insurance Fund	1,500,000.00
Amount recorded as Accounts Receivable	<u>1,520,000.00</u>

I. LOAN TO CHRYSLER CORPORATION

The Board of Public Depositories authorized, in its meeting of July 25, 1980, the Treasurer of State to purchase a Chrysler Corporation Negotiable First Mortgage Note, dated June 2, 1980 in the original principal amount of \$32,000,000, with monies on deposit in the Public Deposit Insurance Fund.

The Note matures on July 30, 1985 and provides for interest at the rate of fifteen and one half percent (15½%) per annum payable on each January 1 and July 1.

The Note is secured by certain real property of Chrysler Corporation's Kokomo, Indiana transaxle and transmission plants and by certain personal property consisting of machinery and equipment in same and having a total appraised value of \$64,000,000.

J. INSTITUTION LOCAL FUNDS

Certain institutions of the Department of Correction, Department of Mental Health, and State Board of Health maintain custodial control over funds to be used for the benefit of their residents. As these funds are not the property of the State of Indiana they are not accounted for in the Auditor of State's funds and, therefore, are not included in the financial statements presented in this report.

The combined balance sheet of these funds as of June 30, 1982 is as follows:

Assets	
Cash	\$1,891,367.66
Investments	5,968,182.33
Other Assets	<u>8,014.36</u>
Total Assets	<u>\$7,867,564.35</u>

STATISTICAL TABLES

**STATE OF INDIANA
STATISTICAL TABLES
TEN YEAR STATE SCHEDULES**

Ten year statistical tables concerning expenditures and revenues in government funds and cash balances in all funds are as follows:

1. Expenditures by Function—Last Ten Fiscal Years—All Governmental Fund Types
2. Revenues by Source—Last Nine Fiscal Years—All Governmental Fund Types
3. Tax Revenues by Source—Last Nine Fiscal Years—All Governmental Fund Types
4. Cash Statement—Last Ten Fiscal Years—All Funds

Note 1: The computer accounting system in use in the Auditor of State's Office was installed in 1974. Prior to that time, detailed records by source of revenue were not maintained for all governmental type funds and accounts of the state. Therefore, only nine years of revenue by source type information are presented in these schedules.

*Included in General and Special Revenue Funds in prior years.

STATISTICAL TABLES
TEN YEAR COUNTY SCHEDULES**

Ten year statistical tables concerning property values and tax levies by county are presented on a calendar year basis. Schedules presented are:

1. Property Tax Levies by County—Last Ten Calendar Years
2. Assessed Value of Taxable Property by County—Last Ten Calendar Years

Public Law 47, Acts of 1975, required a general reassessment of the real property of all the counties of the state beginning January 1, 1976, to be completed on, or before, March 1, 1978, as the basis for taxes payable in 1979. Public Law 32, Acts of 1978, delayed the completion date to March 1, 1979, for taxes payable in 1980. Public Law 60, Acts of 1979, instituted the Homestead Credit to allow an additional credit to homeowners above the property tax replacement credit (see Note 2, below) as follows:

<u>Taxes Payable</u>	<u>Credit</u>
1980	10%
1981	8%
1982	6%
1983	4%
1984	2%
1985 and after	0%

NOTES TO TEN YEAR COUNTY SCHEDULES.

Note 1: Due to pending litigation, the Auditors of Jennings and Vermillion Counties were unable to file the necessary statements to be included in this report for 1981 taxes payable 1982.

Note 2: Public Law 45, Acts of 1973, instituted the Property Tax Replacement Credit to allow a 20% credit for property taxes payable in 1974 and thereafter, funded by one-half of the 4% general sales tax.

ANNUAL REPORT
OF THE
AUDITOR OF STATE

OF THE
STATE OF INDIANA
FOR THE FISCAL YEAR ENDING

JUNE 30, 1982
BOOK II

CHARLES D. LOOS
AUDITOR OF STATE

INTRODUCTION TO THE SUPPLEMENT (BOOK II)

This book includes the statement of Distribution of Motor Vehicle Highway Funds for the fiscal year 1982. There is a listing of current expenditures and encumbrances for the year ended June 30, 1982, by principle and subclass. Also included are county statistical tables on the Valuation of Property 1981 Payable 1982, Amount and Kind of Taxes Levied for the year 1981 Payable 1982, Collection and Distribution of Property Taxes June and December 1980, Payable 1981 Settlements.

The second part of this supplement deals with the Statement of Appropriations, Allotments and Expenditures which is the listing of all the state accounts, and the information pertaining to those accounts. There is also a Detailed Statement of Revenue Received, Refunded and Transferred.

STATE OF INDIANA STATISTICAL TABLES FISCAL YEAR ENDED JUNE 30, 1982 ACCOUNT ACTIVITY

Statistical tables concerning detailed activity by individual account within each fund are as follows:

1. Detailed Statement of Revenue Received, Refunded and Transferred
2. Statement of Appropriations, Allotments and Expenditures

For the purpose of these statements, an account is defined as a separate revenue or appropriation account within a fund assigned to a particular agency of the state to account for that agency's operations as a distinct part of that particular fund. These statements are not necessary for generally accepted reporting, but are used as management information by the Legislature, the Governor, the State Budget Agency and the Auditor of State in keeping track of a certain agency's operations as they pertain to the whole of the state, and by the agencies themselves in controlling their own operations. The account number shown in these statements may be read as follows: The first three digits shown denote the fund involved; the second three digits are the account number assigned; the third set of digits shown indicate the agency to which the account is assigned. The first three digits denote the fund as follows:

100-199	General Fund
200-499	Special Revenue
500-599	Internal Service
600-999	Trust and Agency

Within the General Fund these numbers are further refined into classifying the type of account involved. These distinctions are:

100 & 102	General Fund Appropriation Accounts
101	General Fund Continuing Appropriation Accounts (nonreverting)
11	General Fund Biennial Appropriation Accounts (third digit indicates biennial ending year, eg., 111, 113, . . . , 119)
120	Tort Claims Paid from General Fund
148	County Adjusted Gross Income Tax Accounts (the tax is collected for and distributed to the adopting counties by the state)
15	General Fund Construction Accounts (third digit indicates biennial ending year, eg., 151, 153, . . . , 159)

Some of the terminology used in these statements will be unfamiliar to the average reader. The term "Quietus" used in the Detailed Statement of Revenue, Received, Refunded and Transferred, indicates the total amount received by the Treasurer of State, receipted by the Auditor of State, to an individual revenue or appropriation account, whether true revenue or refund of expenditures. Amounts are then adjusted on the statement to arrive at net revenue.

The legend for the "Object" column of the Statement of Appropriations, Allotments and Expenditures is as follows:

- 0 Legislative Appropriations
- 00 Revenue Received and Appropriated
- 000 Balance Carried Forward
- * Appropriation and Allotment Reversion

Principal Objects of Expenditures:

- 1 Personal Services
- 2 Services Other Than Personal
- 3 Services By Contract
- 4 Materials, Parts and Supplies
- 5 Equipment
- 6 Lands and Structures
- 7 Grants, Subsidies, Refunds, Awards
- 8 In-State Travel
- 9 Out-Of-State Travel

The digit "1" after an object of expenditures indicates a payment on a purchase order encumbered in a prior year.
